

Hello-News!

DD: POCKET WALLPAPER

SEPT 2026

In this months newsletter, we take a look at one of my new projects that is just about finished. DD: Pocket Wallpapers. A one time stop with my wallpaper packs in one place (your pocket!).

You can take a look at the wallpapers on my site (hellodesigner.online) to get an idea of what to expect.

POCKET WALLPAPER

This is my first app. It's a wallpaper app for (at the moment) iPhone. I made it using Xcode and Claude. The UI was designed by me, but Claude handled the coding (I'm new to coding, but I'm learning). I started it to see if it's possible to use AI as a tool (and to learn about AI at the same time). I have wallpapers on my website, and I thought it would be cool to also have an app that lets users check out the packs more easily. The project took me 7 months to complete (I still have a few bugs to sort out, but it's almost complete).

A super clean intaface, images are big and fill the screen, giving you a clean look at the wallpapers.
