NEW PROJECTS!

POCKET WALLPAPERS

My wallpaper app is a one-stop shop (and free download) for all my wallpapers. Pocket Wallpapers offers a wide range of up-to-date wallpaper packs, both free and paid. This makes it easier to see what I have and to see what packs you are interested in. All wallpapers are made by me and can be seen on my [portfolio](#).

(Pocket wallpaper will only be for the iPhone!)

NEW PROJECTS!

APP LOGO'S

A look at the final logo designs. ColourPal Studio will be for iPhone and iPad, Doodle Diary is just for iPad and Pocket Wallpapers will be for iPhone. I'm hoping to have them ready for this year. I plan on not making them a subscription based apps, a one time payment or free with an option to buy premium content (I am testing out what method works best on all three of them).

NEW PROJECTS!

COLOURPAL-STUDIO

ColourPal Studio is the new name; HueForge is gone. I've created a new app logo, which I'll update as I near the final release. The AI mode has also been removed; instead, we have a colour picker. Users can upload an image or photo, and ColourPal will extract the colours as a palette.

Importantly, the app won't collect or store any user data. I'm currently working on adding colour information such as name, **HEX, RGB, CMYK, HSL/HSV**, and more to provide users with more detailed colour details. The app is almost ready for release, with just a few bugs and final touches to sort out.

I've made a new app logo (I will be updating it as I get closer to the final release). The AI mode has also been removed; in its place, we now have a colour picker. Users can upload an image or photo, and ColourPal will extract the colours as a palette (the app will not collect or store any of the user's data). I am now working on adding colour information (Name, **HEX, RGB, CMYK, HSL/HSV**, and more) so users have more detailed information about the colours. The app is just about ready for release, with a few bugs and things to sort out.

ART COMMISSION

COMMISSION BITS!

Here's what I offer:

- Custom Character Art: Original characters and anime-style portraits.
- Pet Portraits.
- Illustrations for Stories and Personal Projects.
- Small Business and Creative Support: Icons, logos and album art.

How it Works:

1. - Get all the details on my Art Commission process by reading the form and terms and conditions carefully.
2. - Fill in the form with as much detail as possible.
3. - If both parties are happy, I'll accept payment and the commission will proceed.
4. - Once the commission is complete, I'll send you the files.

For more information, visit my [[Commissions Page](#)].

My goal is to make the process smooth, communicative and enjoyable. Every piece is created with care and a passion for storytelling through visuals.

Ready to bring your idea to life? Head over to my Commissions Page for full details, pricing and how to get in touch.
