NEW PROJECTS!

SNEEK PEEKS!

MY FIRST APP!

I'm having a go at making a app, the idea is to make all my wallpaper packs that are on my site available on the app. I don't want to go down the subscription route, i would love the app to be free, but will have premium based wallpaper packs, as well as free wallpaper packs.

I am just seeing how it will all come together, it looks great so far, just some bits to do and to add.

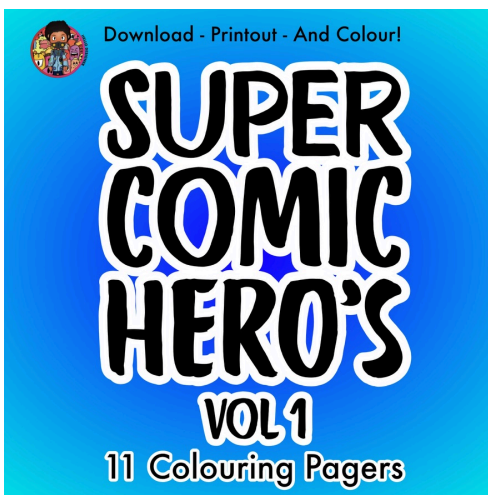

Look out for more info soon (I will be posting updates on my website and on my [Instagram](#) page)
